

Know where to go when feeling unwell

Remember - if you, anyone you live with or members of your support bubble have any of the following symptoms:

-  a high temperature - that is above 37.8C
-  a new continuous cough
-  loss of taste or smell

You MUST NOT leave your home other than to get tested. Stay self-isolating until you get your result. You can find more information at www.gov.uk/coronavirus If someone in your household or support bubble tests positive, or you have been contacted by NHS track and trace, you must isolate for 10 days even if you test negative, as you could still develop symptoms. You can find out how to get a test by visiting the NHS website: www.nhs.uk/coronavirus
